BOHONOMAD®

Hand Made Rope Sandals

SS 2023

BOHONOMAD®

Hand Made Rope Sandals

SUSTAINABLE/ECO-FRIENDLY : The material of sandals can be recycled and these parts can be used in the production of water pipes, plastic chairs etc.

SEA-SALT & CHLORINE WATER RESISTANT : People can wear them by the sea or by the pool. The material does not get damaged, and it dries up very quickly.

VEGAN : There is no leather & any materials and/or animal testing in our products.

LIGHTWEIGHT: They are extremely light so the sandals become even more comfortable.

SOCIALLY RESPONSIBLE : Bohonomad employs only women in the production facility which is located in the countryside where it is really difficult to find jobs for women. We provide them with social security, official payments and with a healthy working environment.

MACHINE WASHABLE : You can wash your sandals in a net and use them over and over for years.

100% HAND-MADE : Bohonomad Rope Sandals are produced by handscraft in the south of Turkey.

CHEMICAL TESTING : We provide tests for AZO colorant and Phtalate from the best laboratory & testing company " Bureau Veritas " for our products.
